THE AGING ROOM IS NOW OPEN!

That's right, we're now releasing cigars from our aging room! Some of these cigars have been resting since 2005. We had to hide them in the deepest darkest corner of the Aging humidor and threaten death to keep people from smoking them. Over the years we've released a box here and there of aged stuff, but nothing like this. Last week we rolled out about 30 boxes of prime aged stock. And, we have plenty held back as this will be an ongoing feature at Tobacco Junction. Aged Cigar are displayed at Tobacco Junction of Longview and Tyler.
